

## Rubicon Scientific announces new President Appointment

Topeka, KS, April 30, 2019

Rubicon Scientific LLC (Rubicon) announces the appointment of Dr. Lionel Reilly as its President. Effective immediately he will assume the day-to-day leadership of the Company.

“We are thrilled to add someone with Lionel’s experience and capabilities to the team” said John Kuenzi, Rubicon’s CEO. His 5 decades of animal health industry experience brings unique insights to the Rubicon organization.

Dr. Reilly is a graduate of the College of Veterinary Medicine at Kansas State University. His resume includes being a US Army Veterinarian, Veterinary practitioner, Technical Services Veterinarian and animal health Pharmaceutical Research. In his career he built the largest privately owned Veterinary products distribution Cooperative. Since retiring Lionel has been active in numerous new product development projects.

Rubicon Scientific LLC is an early-stage companion animal health company pioneering the use of nutritional products as the delivery vehicle for pharmaceutical actives. These products are unique and the first of their kind for companion animals. The Company utilizes leading edge technology to develop a portfolio of medicated premium diets both for disease prevention and therapeutics.
