

Antelligence Unveils Enterprise Practice Location Database

Marietta, GA – September 19, 2024 – Antelligence proudly launches the first-ever comprehensive database of over 8,800 corporate veterinary practice locations across the U.S. Available via annual subscription with quarterly updates, this database also includes advanced insights into the corporate veterinary landscape for deeper analysis.

What We Deliver:

- A CSV file with 8,800 corporate practice locations
- Online mapping software with detailed attributes like corporate affiliation, practice name, address, website, and ownership structure
- Quarterly updates with new data on mergers, acquisitions, and expansion trends

Why It Matters:

- Empowers suppliers to market, deploy sales teams, and more efficiently partner with corporate practices
- Reduces noise for corporate practices by providing data and insights leading to a deeper understanding of practice protocol and needs
- Allows for a deeper understanding of competitive dynamics at local and regional levels for more informed market strategies
